--	--	---

Don't forget you can use GCSE pod as well as links to You tube on class charts.

Students have a copy of the GCSE Revision guide:

You need to revise the:

- Conflict and tension in Asia section
- American 1920-1973 Opportunity and inequality section
- Britain health and the people section

You need to read the information and complete the task and exam questions linked to the content.

Also you have **been given work packs for American 1920-1973 Opportunity and inequality section**. Again you just need to work through the pack reading the information and completing the tasks. **Other booklets will be handed out in lessons once printed.**
